Basis for Opinion

These financial statements are the responsibility of Baytide Securities Corporation's management. Our responsibility is to express an opinion on Baytide Securities Corporation's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Baytide Securities Corporation in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

BAYTIDE SECURITIES CORPORATION

Notes to Financial Statements

December 31, 2018

Note 1 – Organization and Nature of Business

Baytide Securities Corporation (the "Company"), an Oklahoma Corporation and a wholly-owned subsidiary of Baytide Petroleum, Inc. (the "Parent"), is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company offers brokerage services under the exemptive provisions of SEC Rule 15c3-3(k)(2)(i) related to direct participation programs for oil and gas ventures.

The Company is engaged in the sale of limited partnership interests, principally in partnerships in which its Parent acts as a general partner. The limited partnerships are generally engaged in the exploration and development of oil and gas properties. No such limited partnership interests were offered by the Company for the Parent in 2017.

Note 2- Summary of Significant Accounting Policies

Marketable Securities Owned

Marketable securities owned are carried at fair value as determined by quoted market prices. The resulting difference between cost (determined by specific identification) and market (or fair value) is included in income. Marketable securities consist of shares in a U.S. based global stock exchange and clearinghouse which is listed on a national exchange.

Income Taxes

The Company files its tax return separately from its Parent. Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of assets and liabilities for financial and income tax reporting. Deferred tax assets and liabilities represent future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes are also recognized for operating losses that are available to offset future taxable income, subject to a valuation allowance.

Tax benefits associated with uncertain tax positions are recognized in the period in which one of the following conditions is satisfied: (1) the more likely than not recognition threshold is satisfied; (2) the position is ultimately settled through negotiation

of litigation; or (3) the statute of limitations for the taxing authority to examine and challenge the position has expired. Tax benefits associated with an uncertain tax position are de-recognized in the period in which the more likely than not recognition threshold is no longer satisfied. Any potential interest and penalty associated with tax contingency, should one arise, would be included as a component of income tax expense in the period in which the assessment arises. Income tax returns are generally subject to examination by the respective federal and state authorities over various statutes of limitations generally three years from the date of filing.

Revenue Recognition

Concession income is recognized when minimum offering investment requirements are met, and escrowed funds are released to the issuer.

Cash and Cash Equivalents

For purpose of the statement of cash flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Compensated absences have not been accrued because the amount cannot be reasonably estimated.

Note 3 - Fair Value Measurements

In accordance with U.S. GAAP, the Company categorizes its marketable securities owned recorded at fair value into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument. Marketable securities owned are classified as Level 1 assets because valuations are based on quoted prices in active markets for identical assets that the Company has the ability to access.

Note 4 - Related Party Transactions

The Parent provides office space, personnel and administrative overhead for the benefit of the Company under an expense sharing agreement. These expenses represent substantially all expenses reported in the statement of income. The Parent treats payment of such expenses as capital contributions to the company.

As described above, the Company is economically dependent on its Parent. The Company's financial position and results of operations could be significantly different if the Company was independent of its Parent.

Note 5 - Net Capital Requirements

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate daily. At December 31, 2018, the Company had net capital of approximately \$37,578 and net capital requirements of \$5,000. The Company's ratio of aggregate indebtedness to net capital was 1.94 to 1. The Securities and Exchange Commission permits a ratio of no more than 15 to 1.

The Company is exempt from SEC customer Protection Rule (Rule 15c3-3), which relates to reserves and custody of securities, under section (k)(2)(i) of the Rule.

Note 6 - Income Taxes

The Company has net operating loss carry forwards of approximately \$348,469 which may be used to offset future taxable income. The loss carry forwards expire between 2019 and 2037.

Net deferred income tax assets related to net operating loss carry forwards and unrealized appreciation on marketable securities owned of \$24,471 have been fully offset by a valuation allowance due to the uncertainty of realizing future benefits. The net deferred income tax benefit of \$4,331 related to the 2018 net operating loss and the change in unrealized appreciation on marketable securities owned has been fully offset by an increase in the valuation allowance. The Company uses an effective tax rate of 21% in calculating its deferred tax assets and liabilities.

Note 7- DATE OF MANAGEMENT REVIEW

No events have occurred through February 25, 2019, which is the date the financial statements were available to be issued, that would require re-cording or disclosure in the financial statements for the year ended December 31, 2018.
